READ! "CHANGING THE CLIMATE"

The Earth's climate **may be getting warmer**. Smoke and fumes from factories, power stations and cars **are collecting** high in the sky and **forming** a blanket round the Earth. This blanket **stops** extra heat escaping from the Earth and **makes** the air warmer than usual. If the Earth **gets** too **warm**, the ice at the poles **may melt**. This **may make** the seas rise and cover low-lying places.

Gases called CFCs **are** also **changing** the climate by destroying the ozone layer round the Earth. This layer **protects** us from the Sun's harmful rays, which **may damage** our skin if they **reach** the Earth. CFCs **are found** in some aerosol spray cans. CFCs **are** also in some of the plastic packaging used to wrap meat and eggs. Many shops now **sell** goods which **do not contain** CFCs.

2. FILL IN THE CORRECT WORDS:

The Earth's climate may be getting warmer. Smoke and fumes from factories , power stations and cars are collecting high in the sky and forming a blanket round the Earth. This blanket stops extra heat escaping from the Earth and makes the air warmer than usual. If the Earth gets too warm, the ice at the poles may melt. This may make the seas rise and cover low-lying places.

Gases called CFCs (freons) are also changing the climate by destroying the ozone layer round the Earth. This layer protects us from the Sun's harmful rays, which may damage our skin if they reach the Earth. CFCs are found in some aerosol spray cans. CFCs are also in some of the plastic packaging used to wrap meat and eggs. Many shops now sell goods which do not contain CFCs.

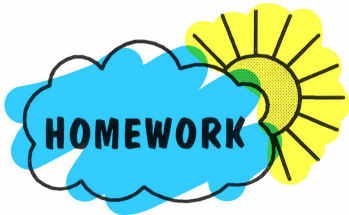

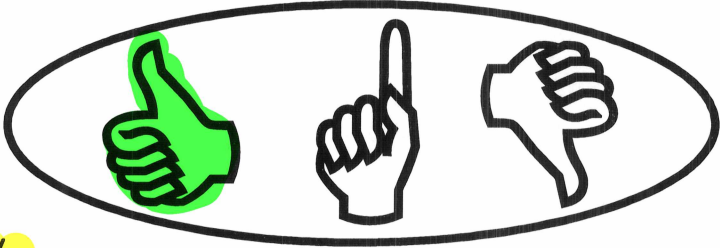

3. Choose the correct option:

1. The Earth's climate may be getting *colder / worst / warmer*
2. If the Earth gets / *starts / jumps* too warm, the ice at the poles may melt.
3. CFCs are in some of the *paper / metal / plastic* packaging used to wrap meat and eggs.

4. Find 10 mistakes in the following text and correct them:

Gases called CFCs are also changing the climate by describing the ozone lawyer round the Earth. This liar protects us from the Son's harmful rays, which may damage our skip if they reach the Earth. CFCs are found in some aerosol spray cans. CFCs are also in some of the plastic packaging used to wrap mice and socks. Many shows now sell gods which do not contain CFCs.

Find the meaning of the incorrect words from exercise 4.

Use your dictionary:

1. describe = popsat
2. lawyer = právník
3. liar = lhář
4. son = syn
5. skip = skákat
6. cats = kočky
7. mice = myši
8. socks = ponožky
9. shows = představení
10. gods = bohové
